

# Aleksandr Volkov

Senior AI Strategy Director

(347) 521-8864 | aleksandr.volkov@email.com | Brooklyn, NY

## PROFESSIONAL EXPERIENCE

**Senior AI Strategy Director** | Lumina Entertainment Group | March 2024 – Present

AI implementation roadmap development across content production pipelines. Strategic assessment of emerging language models for creative workflows. Cross-departmental coordination regarding automation opportunities within post-production environments. Machine learning frameworks evaluation for narrative analysis applications. Competitive landscape analysis of AI tools in media technology sector. Internal stakeholder alignment on generative AI adoption timelines. Documentation of tool capabilities and integration possibilities.

**Content Technology Specialist** | Beacon Pictures LLC | September 2022 – February 2024

Large language model exploration for script analysis and development. Multimedia asset management system optimization through AI-adjacent technologies. Prompt engineering methodologies for creative brief generation. API integration assessment across various AI platforms. Video processing tool evaluation for editorial workflows. Dialogue generation model experimentation for preliminary concept work. Marketing collateral optimization using machine learning approaches.

**Junior Digital Producer** | Stellar Motion Design Studio | June 2021 – August 2022

Generative AI platform research for animation and visual effects applications. Tool comparison matrices for image synthesis and enhancement. Workflow documentation for emerging creative technologies. Client presentation materials regarding AI capabilities in design production. Vendor relationship management with AI software providers. Budget analysis for software licensing across multiple AI tools. Preliminary testing of text-to-image and video generation platforms.

## TECHNICAL SKILLS & TOOLS

**Large Language Models & AI Frameworks:** ChatGPT, Claude, Gemini Pro, Llama 2, Mixtral, Grok, Perplexity, LangChain, LlamaIndex, Hugging Face Transformers, OpenAI API, Anthropic API

**Generative Media & Creative AI:** Midjourney, DALL-E 3, Runway ML, Stability AI, Descript, Adobe Firefly, ElevenLabs, Synthesia, Eleven Labs API

**Data & Analytics Platforms:** Pinecone, Weaviate, Milvus, Qdrant, vector database architecture, embedding models, RAG systems, semantic search

**Cloud & Infrastructure:** AWS services, Azure OpenAI, Google Cloud Platform, Lambda functions, S3 storage, compute optimization

**Business & Integration Tools:** Zapier, Make, n8n, workflow automation, integration mapping, API documentation, Postman

**Development & Scripting:** Python basics, JavaScript fundamentals, JSON, YAML configuration, Git version control, GitHub

**Content & Media Specific:** Final Cut Pro, Adobe Creative Suite integration, DaVinci Resolve, Notion workspaces, Airtable automation, Monday.com workflows

## EDUCATION

**Bachelor of Arts in Media Studies** | State University of New York, Purchase | 2021
