

# Yuki Tanaka

Senior Infrastructure Architect

yuki.tanaka@mailforward.com | (206) 447-3891 | LinkedIn.com/in/yukitanaka-infra | Seattle, WA

## TECHNICAL SKILLS

**AI & Machine Learning:** LangChain, LlamaIndex, Hugging Face Transformers, OpenAI API, Anthropic Claude, Mistral AI, Cohere, Ollama, CrewAI, AutoGen, LiteLLM, Ray, Weights & Biases

**Cloud & Infrastructure:** AWS (EC2, S3, Lambda, SageMaker), Google Cloud Platform (Compute Engine, Vertex AI), Azure ML, Kubernetes, Docker, Terraform, CloudFormation, Prometheus, Grafana

**Databases & Storage:** PostgreSQL, MongoDB, Redis, DynamoDB, Pinecone, Weaviate, Chroma, Qdrant, Apache Kafka, Elasticsearch

**Development & DevOps:** Python, Go, TypeScript, FastAPI, Flask, Jenkins, GitLab CI/CD, Datadog, New Relic, ArgoCD, Helm

**Data & Analytics:** Apache Spark, Airflow, dbt, Snowflake, BigQuery, Tableau, Apache Beam

**Observability & Monitoring:** ELK Stack, Jaeger, OpenTelemetry, Splunk, CloudWatch

## PROFESSIONAL EXPERIENCE

**Senior Infrastructure Engineer** | Vertex Systems Inc. | June 2023 – Present

- Kubernetes clusters and container orchestration
- CI/CD pipeline architecture and deployment automation
- Database optimization and replication strategies
- AWS Lambda functions and serverless architecture patterns
- Terraform infrastructure-as-code modules
- Monitoring dashboards and alerting frameworks

**Infrastructure Developer** | Nexus Cloud Technologies | January 2022 – May 2023

- PostgreSQL and MongoDB schema design
- Redis caching layers and session management
- Docker containerization and image registry management
- Prometheus metrics collection and Grafana visualization
- Kafka topic configuration and consumer group management
- GitHub Actions workflow automation

**DevOps Engineer** | TechBridge Solutions | July 2020 – December 2021

- AWS EC2 instance provisioning and auto-scaling groups
- S3 bucket policies and lifecycle management
- CloudFormation templates for infrastructure deployment
- Application load balancer configuration
- VPC networking and security group rules
- Log aggregation with ELK Stack

**Junior Systems Administrator** | Cascade IT Partners | March 2019 – June 2020

- Linux server administration and shell scripting
- Apache web server configuration

- Basic network troubleshooting and diagnostics
- User access management and permissions
- Backup and disaster recovery procedures

## **EDUCATION**

**Bachelor of Science in Computer Science** | University of Washington | 2019
