

Nia Carrington

Supply Chain Operations Manager | Logistics Technology Specialist

Portland, OR | (503) 847-2291 | nia.carrington@email.com

PROFESSIONAL SUMMARY

Results-driven supply chain professional with 6 years of experience optimizing logistics operations and warehouse management systems. Proven track record implementing inventory control processes, coordinating vendor relationships, and streamlining distribution workflows across mid-size operations. Skilled in translating business requirements into technical solutions using enterprise systems and data analysis.

EXPERIENCE

Senior Supply Chain Analyst

Cascadia Distribution Partners | Portland, OR | March 2023 – Present

- Redesigned inventory forecasting methodology, reducing overstock incidents by 28% and improving cash flow predictability
- Managed integration between legacy warehouse management system and new ERP platform; coordinated with IT team on data migration and testing protocols
- Developed automated reporting dashboard in Excel/SQL that tracks KPIs for 15 distribution centers; cut manual reporting time from 12 hours to 2 hours weekly
- Led cross-functional meetings with procurement, sales, and finance to align demand planning with supply strategy
- Conducted root cause analysis on shipping delays and implemented corrective actions, improving on-time delivery from 91% to 96%

Logistics Coordinator

Northpoint Freight Solutions | Vancouver, WA | June 2021 – February 2023

- Coordinated shipments for 200+ active customer accounts, managing carrier selection and rate negotiation
- Processed orders, tracked inventory across four warehouse locations, and maintained carrier compliance documentation
- Implemented new tracking system that provided real-time visibility to customers; reduced inquiry volume by 35%
- Trained 8 new warehouse associates on Standard Operating Procedures and compliance requirements
- Assisted in pilot project evaluating machine learning for demand forecasting; gathered requirements and provided feedback on system accuracy for final report

Warehouse Operations Assistant

NextGen Logistics | Portland, OR | August 2019 – May 2021

- Managed receiving, picking, and shipping operations for 12,000+ SKU product catalog
- Maintained inventory accuracy through cycle counting and reconciliation; achieved 99.2% count accuracy
- Used warehouse management system daily to process 150+ orders per day
- Identified inefficiencies in picking routes and proposed layout optimization that reduced average fulfillment time by 18%
